Welcome note

Dear Colleagues,

Pediatric Neurosurgery is truly an interdisciplinary enterprise, where many specialists work hand in hand for the best outcome of infants, children and adolescents with neurosurgical diseases. The interdisciplinary routine as common solutions for unexpected challenges are one of the main keystones for the success of Pediatric Neurosurgery.

After having had two German and one successful international Meeting for interdisciplinary discussion on pediatric neurosurgical topics since 2015, we are approaching in 2018 the 4th edition of “Interdisciplinary Pediatric Neurosurgery“, the forum format for fruitful exchange between pediatric neurology, orthopedic and pediatric surgery, pediatric oncology, pediatric neuroradiology, pediatric neuro-surgery and all associated specialists of the head region like ophthal-mology, ENT and maxillofacial surgery.

This year’s forum will deal on one day with all interdisciplinary aspects around CNS infections, be it bacterial, viral or autoimmune. The second day will focus on the interdisciplinary management of cerebrovascular diseases in the pediatric age group.

The meeting will be organized by interdisciplinary teams from Sankt Augustin (M. Messing-Jünger and G. Horneff) and Duisburg (F. Brassel).

We hope to welcome you to the true excitement of interdisciplinary crossover, which will this year take place in the western part of Germany, in Sankt Augustin near Bonn.

With cordial regards
and on behalf of the whole interdisciplinary organizing committee

Martin U. Schuhmann, Tübingen
Ulrich-W. Thomale, Berlin
Martina Messing-Jünger, Sankt Augustin

Main topics

Friday, 26 October
Interdisciplinary aspects around CNS infections

Saturday, 27 October
Interdisciplinary management of cerebrovascular diseases in the pediatric age group (AVM, cavernomas, VGAM)

Registration

Please register online at www.pediatric-neurosurgery.eu.

The registration fee is

Member DGNC	85 EUR
Member ESPN	85 EUR
Non-member	100 EUR

Industrial exhibition

The conference will be accompanied by a specialized industrial exhibition. Interested companies are invited to request information on the exhibition modalities from the conference organization Conventus.

Certification

The conference will be applied for certification at the Medical Association of North Rhine.

Endorsements

European Society for Pediatric Neurosurgery
(ESPN)

German Society of Neurosurgery
(DGNC)

Endorsements of the GNP, EANS and ISPN are requested.
